SAVE COSTS. SAVE TIME. DO MORE WITH SOLIS

Solis Commercial Rooftop portfolio, the industry's largest, offers 208/240V and 480V solutions from 25kW to 125kW. Our powerful solutions of PV string inverters with free SolisCloud monitoring. Our UL3741 Listed systems, known for quality and flexibility. This enables our systems to meet safety requirements with fewer components.

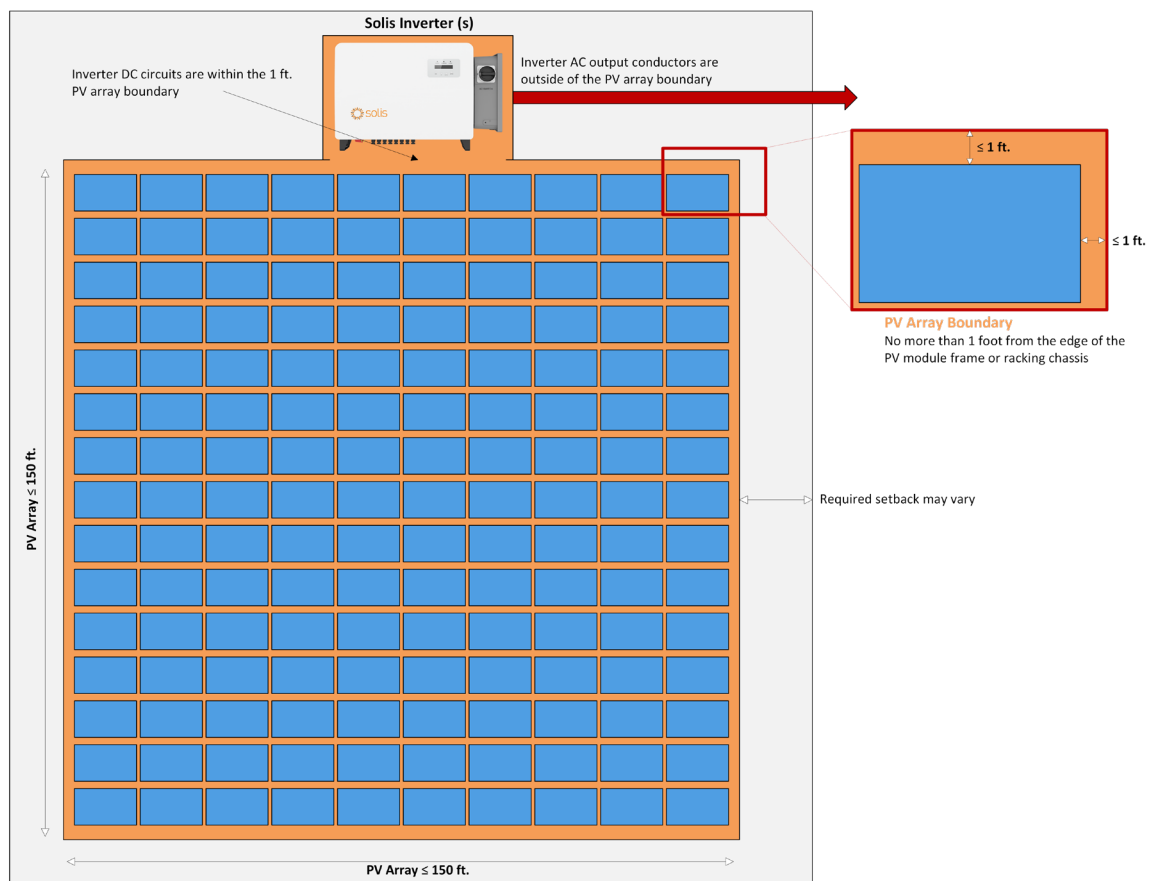

Array-level Rapid Shutdown makes commercial systems more cost-effective, faster to install, and simpler. As a result, you can serve more customers efficiently, helping them achieve resiliency goals quicker.

Implementing the UL 3741 Solution

Solis is UL3741 compliant when installed with these partner racking manufacturers within the array boundary. Always consult racking manufacturers' addendums and installation manuals for full guidance and compliance.

Example UL 3741 Commercial Solution
